

## Retrofit Cartridges for Competitive Systems

The CunoOCS® line of filtration products are carefully designed to protect beverage equipment, provide consistent beverage quality, and ensure seamless beverage service.

The CunoOCS retrofit cartridges upgrade the performance of existing competitive systems with the same premium performance and design characteristics as the Series 500 and 700.

The cartridge design offers simple changeouts while minimizing corrosion potential often seen in metallic housings.

The sanitary quick change design minimizes contamination of the filtration media, while the compact footprint allows the unit to be installed snugly behind the beverage unit or neatly under a cabinet.

The housing is durable and shatter-resistant, minimizing the potential for leaks.

Units are FDA, CFR-21 compliant for use in all food and beverage applications and are 3rd party certified for design and performance.

Three (3) premium carbon technologies are available for differing water conditions.

---

### Maximum Protection

CS-25

Capacity: 2,000 gallons (7,571 liters) or 266 cups/day\*

#### Features

- Graded density, compressed carbon block
- 0.5 micron cyst, turbidity, fine sediment reduction
- Chlorine taste and odor reduction

#### Benefits

- Does not require activation
- Extends contact time for maximum chlorine and sediment reduction
- Maximum protection and long life
- Enhances beverage quality over the life of the filter

---

### General Purpose

CS-15

Capacity: 2,500 gallons (9,464 liters) or 333 cups/day\*

#### Features

- Graded density, multi-composite carbon block
- 1 micron sediment reduction
- Chlorine taste and odor reduction

#### Benefits

- Does not require activation
- Enhances beverage clarity
- Enhances beverage quality over the life of the filter

---

### Problem Water

CS-65

Capacity: 2,400 gallons (9,085 liters) or 320 cups/day\*

#### Features

- Built-in 5 micron prefiltration
- Chlorine taste and odor reduction

#### Benefits

- Suitable for water conditions with heavy dirt load
- Reduces maintenance caused by clogged valves and orifices
- Enhances beverage quality over the life of the filter

\*Cups/day based on 8oz cup (237 ml), 20 day work month and 6 month changeout schedule.

For cold water use only. This product is for commercial use only. All materials are FDA compliant with CFR title 21.

Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

Systems certified for cyst reduction may be used on disinfected water that may contain filterable cysts. EPA Establishment No. 070595-CT-001

CunoOCS products contain one or more of the following NSF listed head/cartridge combinations:

- CS-25/CS-25
- CS-15/CS-15
- CS-65/CS-65

Refer to the PDS sheet for the certified claims.
